# The automatic choice for safety, savings and convenience!

A backyard swimming pool is the ultimate source of family fun! But when it comes to children and pets, it is also the source of safety concerns. Fences and alarms help, but children can sometimes still gain access to an unsupervised pools. Coverstar automatic safety covers are child-proof, pet-proof and wild-life proof, so playtime comes with peace of mind - and they're backed by a lifetime warranty.

- **Strong protection – at the touch of a button!**
- **Save on heat, water, electricity, and chemicals.**
- **Less time cleaning...more time enjoying!**

Constructed using specially formulated materials, automatic safety covers can be effortlessly opened or closed at the touch of a button. With their unobtrusive design, automatic pool covers deliver the ultimate in safety and convenience. Over time, the cost savings from heat loss and evaporation prevention, combined with the reduced chemical use will add up to the safety cover paying for itself.

The weather-proof toggle switch opens or closes your pool in less than a minute. And it locks for secure access!

**Coverstar delivers big savings . . . automatically!**

**90% reduction** in evaporation

**70% reduction** in pool heating costs

**50% reduction** in electricity costs

**70% reduction** in chemical use

An optional touchpad control with programmable security code is also available.

Coverstar is the only company that builds in more exclusive design and manufacturing features ensuring strength and performance of its automatic covers.

**Heat-sealed webbing for double the strength!**

Coverstar uses an exclusive, patented process to heat seal webbing around a polymer bead and weld it to the cover in one step. *Independent lab tests show Coverstar's webbing is over twice as strong as competitive webbing sewn to a cover!*

**Mechanism engineered for unmatched reliability.**

Our unique mechanism is engineered with heavy-duty components and stronger ropes and pulleys than any others used in the industry. The extreme precision of the machined and laser-cut parts allows for smooth operation and many, many years of hassle-free use.

- **Coverstar motors** are completely sealed, using a proprietary method, to prevent water damage.
- **PowerFlex™ Ropes** act like a shock absorber and self-adjust during operation for more reliable performance. And they're the only ropes that come with a two-year no-break guarantee!
- **Incredibly strong and durable fabric** with advanced vinyl formulation and superior fabrication methods.
- **Mechanical torque limiter** is adjustable to protect the motorized mechanism from too much stress.
- **Custom designed rope pulleys** provide maximum reliability in the pool environment.

Quality you  
 can rely on!

**BUILT  
 COVERSTAR  
 STRONG**

Coverstar automatic safety covers are independently certified by the Underwriters Laboratories to exceed the powered safety cover requirements set by the American Society of Testing and Materials (ASTM F1346-91), and are UL listed to meet all electrical and safety standards.

# Automatic safety cover options for every need and every pool!

Coverstar automatic safety covers can be applied to a broad range of pool designs and types.

## Choice of ten standard fabric colors\*:

\*Many other custom colors and fabric weights available.

## Track Option

**Under track systems** are embedded in the pool wall or mounted to the bottom side of rectangular pools' coping, allowing tracks to remain virtually unnoticed. For a more integrated look, tracks can be built directly into the pool wall using track encapsulation.

**Top track systems** can be used with most freeform pools. The cover's drive system is installed under an aluminum lid or mounted to the surface of the deck.

**Recessed track systems** feature aluminum tracks that are recessed in the pool deck during the construction of the pool. The recessed track is flush with the top of the deck.

## Lid Options

Classic Aluminum Lid, Flat Lid, Flush Deck Lid, and Walk-On Lid

## Coping Options

**Aluminum:** Bullnose, Inclined, and Rounded

**Concrete:** (also compatible for gunite and
